BEFORE THE
TAX REVIEW BOARD

COUNTY OF WAKE

IN THE MATTER OF:

The Proposed assessment of Controlled Substance Excise
tax for possession of non-tax-paid Controlled Substance
on August 4, 1992 by the Secretary of Revenue against
JOHN B. MELVILLE, JR. and DAVID J. COLLINS

REMAND HEARING OF
ADMINISTRATIVE
DECISION NUMBER: 300

THIS MATTER was heard by the Tax Review Board on remand from the initial determination of the Honorable George L. Wainwright, Superior Court Judge of Onslow County, North Carolina on April 22, 1997, in the City of Raleigh, Wake County, North Carolina in the office of the State Treasurer.

Chairman Harlan E. Boyles, State Treasurer presided over the hearing with Jo Anne Sanford, Chair, Utilities Commission and duly appointed member, Noel L. Allen, attorney at law participating.

Walter W. Vatcher and Charles K. Medlin, Jr., attorneys at law, appeared on behalf of the Taxpayers; Christopher E. Allen, Assistant Attorney General, appeared on behalf of the Department of Revenue.

On April 11, 1995, the Board conducted an administrative hearing based upon the petitions filed by John B. Melville, Jr and David J. Collins (hereinafter "Taxpayers") to review the final decision entered by the Assistant Secretary of Revenue on January 14, 1994. On July 10, 1995, the Board rendered its decision and confirmed the assessment of the controlled substance excise tax in the amount of \$79,380.00 but reversed the final decision of the Secretary regarding the penalty imposed against the Taxpayers and modified the assessment of the penalty to be applicable only to the net amount of the tax assessed remaining unpaid after the application of any amount received by the garnishment filed by the Department of Revenue.

On August 2, 1995, Taxpayers' filed a petition for judicial review of the Tax Review Board's Administrative Decision Number 300 with the Superior Court of Onslow County, North Carolina. On February 13, 1997, Judge Wainwright entered an initial determination pursuant to the authority of G.S. §150B-51. G.S. §150B-51(a) provides for the reviewing judge to determine whether the agency decision states the specific reasons why the agency did not adopt the [Assistant Secretary's] recommended decision. Judge Wainwright stated in the initial determination "[t]hat the Tax Review Board did not offer or state any specific reasons why it did not adopt the recommended decision. In modifying the recommended decision, the Tax Review Board did not reduce the assessment to a sum certain or the issue remains as to whether the language is capable of being reduced to a sum certain."

IT APPEARING TO THE BOARD upon review of this matter on remand that no specific reasons were offered to determine why the Assistant Secretary's final decision was not adopted;

AND IT FURTHER APPEARING TO THE BOARD after carefully considering the matters of record and the arguments presented at hearing on the remand and upon review of the judge's initial determination that the followings reasons are entered regarding why the recommended decision was not adopted in all respects:

1. The Department of Revenue attached and garnished bank accounts of the Taxpayers on the assessment date of August 4, 1992.
2. A penalty based upon the assessment against the Taxpayers would not accrue until 48 hours after the above referenced assessment date.
3. The Secretary of Revenue is therefore estopped from imposing a penalty based upon non-payment of the controlled substance excise tax to the extent that the Department of Revenue obtained a levy and garnishment against the Taxpayers securing payment of the tax prior to the time that the penalty would accrue.

Therefore, the Board determines that the total assessment due and payable by the Taxpayers in this matter for the period of August 4, 1992 be and is hereby \$79,380.00.

Entered this the 9th day of July, 1997.

IN THE MATTER OF:

The Proposed Assessment of Additional Income Tax
for the taxable years of 1992, 1993 and 1994
by the Secretary of Revenue against
Thomas P. May, Jr. and Sandra G. May

ADMINISTRATIVE
DECISION NUMBER: 331

THIS MATTER was heard before the Tax Review Board on Tuesday, April 22, 1997, in the City of Raleigh, Wake County, North Carolina, in the office of the State Treasurer. It involved the petition for administrative review filed by Thomas P. May, Jr. and Sandra G. May (hereinafter "Taxpayers") from the Final Decision of Michael A. Hannah, Assistant Secretary for Legal and Administrative Services (hereinafter "Assistant Secretary") entered on October 9, 1996, sustaining penalties proposed for late payment, late filing and underpayment of estimated income taxes for tax years 1992, 1993, and 1994.

Chairman Harlan E. Boyles, State Treasurer presided over the hearing with Jo Anne Sanford, Chair, Utilities Commission and duly appointed member, Noel L. Allen, Attorney at Law participating.

The Taxpayers did not appear at the hearing. George W. Boylan, Special Deputy Attorney General, appeared at the hearing on behalf of the Department of Revenue.

The issues presented on review were:

1. Whether the Secretary erred in sustaining the income tax assessments proposed against the Taxpayers for the taxable years 1992, 1993 and 1994.
2. Whether the proposed assessment should be withdrawn because the Department did not timely respond to Taxpayers' request for a hearing.

The scope of administrative review for petitions filed with the Tax Review Board is governed by G.S. §105-241.2(b2). G.S. §105-241.2 states in pertinent part:

(b2). ... "after conducting a hearing, the Board shall confirm, modify, reverse, reduce or increase the assessment or decision of the Secretary."

After the hearing, the Board carefully reviewed the petition, the brief, the final decision and the record of the proceeding before the Assistant Secretary and upon review of the documents the Board determined that the findings of fact made by the Assistant Secretary were fully supported by competent evidence in the record, that the conclusions of law made by the Assistant Secretary were fully supported by the findings of fact, and that the decision of the Assistant Secretary was fully supported by the conclusions of law. Therefore, the Board determined that the Assistant Secretary did not err in sustaining the proposed assessment against the Taxpayers.

The Board further determined that the assessment may not be canceled simply because an administrative hearing was not timely provided to the Taxpayers. Effective January 1, 1994, G.S. §105-241.1(c) has directed the Department to furnish an administrative hearing within 90 days after the timely request for a hearing is filed by a taxpayer. Even though an affirmative duty is placed upon the Secretary to satisfy the statute's guidelines, the legislature specifically elected not to couple this requirement with sanctions. Furthermore, Taxpayers have failed to provide any evidence of bad faith on the part of Department regarding the delay in the hearing. Therefore the Board determined that the Assistant Secretary did not err in refusing to cancel the assessment because the hearing was not timely.

IT IS THEREFORE ORDERED, that the Final Decision of the Assistant Secretary is **CONFIRMED** in every respect.

Entered this the 8th day of July, 1997.

IN THE MATTER OF:

The Proposed assessment of Controlled Substance Excise
tax for possession of non-tax-paid Controlled Substance
on March 28, 1991 by the Secretary of Revenue against
MICHAEL ANTONIO GOODMAN

**ADMINISTRATIVE
DECISION NUMBER: 332**

THIS MATTER was heard before the Tax Review Board (hereinafter "Board") on Tuesday, April 22, 1997, in the City of Raleigh, Wake County, North Carolina in the office of the State Treasurer. It involved a petition for administrative review filed by Michael Antonio Goodman (hereinafter "Taxpayer") of the final decision of Michael A. Hannah, Assistant Secretary for Legal and Administrative Services (hereinafter "Assistant Secretary") entered on October 24, 1996 sustaining a proposed assessment of controlled substance excise tax for possession of non-tax-paid controlled substance for the period of March 28, 1991.

Chairman Harlan E. Boyles, State Treasurer presided over the hearing with Jo Anne Sanford, Chair, Utilities Commission and duly appointed member, Noel A. Allen, Attorney at Law participating.

Taxpayer did not appear and was not represented by counsel at the hearing; Christopher E. Allen, Assistant Attorney General, appeared at the hearing on behalf of the Department of Revenue.

The purpose of this Board is to provide administrative review to a Taxpayer from the Secretary of Revenue's decision sustaining the assessment of tax or additional tax pursuant to North Carolina Revenue Laws. The scope of administrative review for petitions filed with the Board is governed by G.S. §105-241.2(b2). G.S. §105-241.2 states in pertinent part:

(b2). ... "after conducting a hearing under this section, the Board shall confirm, modify, reverse, reduce, or increase the assessment or decision of the Secretary."

In the Petition, Taxpayer's primary argument focused on the determination by the federal magistrate judge in the criminal proceeding. In that proceeding the judge ruled that the trooper's initial stop was unconstitutional. By ruling that the trooper's initial stop was unconstitutional, the judge granted Taxpayer's motion to suppress evidence that was obtained by the trooper in the search. Thus, the Taxpayer argued that the evidence obtained in the search is likewise excluded from the Secretary. The argument presented by the Taxpayer to the Board was not tendered to the Secretary of Revenue until after the deadline to submit briefs had expired. Therefore the Secretary based the final decision upon the record appearing at the time of the hearing.

Counsel for the Secretary addressed the exclusionary rule regarding illegal or tainted evidence in the brief submitted to the Board. In the brief counsel for the Secretary stated that generally the exclusionary rule does not operate to bar illegally or tainted evidence from civil proceedings. However, where the evidence is found to be invalid and excluded from criminal action, that evidence is properly excluded from a related civil administrative proceeding. *Turner v. Lawton, (Okla.) 733 P.2d 375, cert. den. 483 U.S. 1007, 97 L.Ed.2d 738, 107 S.Ct. 3232 (1987)*. In light of argument submitted to the Board in Taxpayer's Petition, counsel for the Secretary asked the Board to remand this matter to the Secretary for further findings of fact and reconsideration.

IT APPEARING TO THE BOARD upon review of the Petition and the Brief that there were apparent discrepancies in the record before the Secretary;

IT IS THEREFORE ORDERED, that the Taxpayer's case is **Remanded** to the Secretary for further findings of fact and reconsideration.

Entered this the 8th day of July, 1997.

IN THE MATTER OF:

The Proposed assessment of Controlled Substance Excise
tax for possession of non-tax-paid Controlled Substance
on February 19, 1996 by the Secretary of Revenue against
DONNA TODD (DAWSON)

**ADMINISTRATIVE
DECISION NUMBER: 333**

THIS MATTER was heard before the Tax Review Board (hereinafter "Board") on Tuesday, April 22, 1997, in the City of Raleigh, Wake County, North Carolina in the office of the State Treasurer. It involved a petition for administrative review filed by Donna Todd (Dawson) (hereinafter "Taxpayer") of the Revised Final Decision of Michael A. Hannah, Assistant Secretary for Legal and Administrative Services (hereinafter "Assistant Secretary") entered on July 26, 1996 sustaining a proposed assessment of controlled substance excise tax for possession of non-tax-paid controlled substance for the period of February 19, 1996.

Chairman Harlan E. Boyles, State Treasurer presided over the hearing with Jo Anne Sanford, Chair, Utilities Commission and duly appointed member, Noel A. Allen, Attorney at Law participating.

Taxpayer did not appear and was not represented by counsel at the hearing; Christopher E. Allen, Assistant Attorney General, appeared at the hearing on behalf of the Department of Revenue.

After conducting the hearing, the Board reviewed the petition, brief, revised Final Decision and the record of the matter in the proceeding before the Assistant Secretary. The dispositive issue before the Board was whether the Assistant Secretary erred in sustaining the controlled substance excise tax including the penalty and interest imposed against the Taxpayer. In the petition, the Taxpayer challenged the constitutionality of the statute under which the tax is assessed.

N.C.G.S. §105-113.105 et. seq. provides for the levy of an excise tax on persons (dealers) who possess a non-tax-paid controlled substance. The tax is due within 48 hours after the dealer acquires a non-tax-paid controlled substance. As a general rule, a proposed assessment of a tax is presumed to be correct pursuant to N.C.G.S. §105-241.1(a), thus the burden is on the Taxpayer to overcome the presumption and rebut the assessment.

The purpose of this Board is to provide administrative review to a Taxpayer from the Secretary of Revenue's decision sustaining the assessment of tax or additional tax pursuant to North Carolina Revenue Laws. The scope of administrative review for petitions filed with the Board is governed by N.C.G.S. §105-241.2(b2). N.C.G.S. §105-241.2 states in pertinent part:

(b2). ... "after conducting a hearing under this section, the Board shall confirm, modify, reverse, reduce, or increase the assessment or decision of the Secretary."

N.C.G.S. § 105-241.2 does not give this administrative board the authority or jurisdiction to rule on the constitutionality of a statute. *Great Am. Ins. Co. v. Gold*, 254 N.C. 168, 118 S.E.2d. 792 (1961).

12 NCAC 10B .0705 - This addition requires a school director to attend a school director's orientation prior to the delivery of a Detention Officer Certification Course.

12 NCAC 10B .0706 - The rule changes are for structure; and paragraph (3) has been added to specify that the school director needs to comply with the accreditation requirements.

.3055 REALLOCATIONS AND ADJUSTMENTS

(a) REALLOCATIONS.

- (1) Reallocations shall be made only to the extent that the methodologies used in the State Medical Facilities Plan to make need determinations indicate that need exists after the inventories are revised and the need determinations are recalculated.
- (2) Beds or services which are reallocated once in accordance with this Rule shall not be reallocated again. Rather, the

- Medical Facilities Planning Section shall make any necessary changes in the next annual State Medical Facilities Plan.
- (3) Dialysis stations that are withdrawn, relinquished, not applied for or decertified shall not be reallocated. Instead, any necessary redetermination of need shall be made in the next scheduled publication of the Semiannual Dialysis Report.
- (4) Appeals of Certificate of Need Decisions on Applications. Need determinations of beds or services for which the CON Section decision has been appealed shall not be reallocated until the appeal is resolved.
- (A) Appeals Resolved Prior to August 17: If an appeal is resolved in the calendar year prior to August 17, the beds or services shall not be reallocated by the CON Section; rather the Medical Facilities Planning Section shall make the necessary changes in the next annual State Medical Facilities Plan.
- (B) Appeals Resolved on or After August 17: If the appeal is resolved on or after August 17 in the calendar year, the beds or services, except for dialysis stations, shall be made available for a review period to be determined by the CON Section, but beginning no earlier than 60 days from the date that the appeal is resolved. Notice shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for receipt of new applications.
- (5) Withdrawals and Relinquishments. Except for dialysis stations, a need determination for which a certificate of need is issued, but is subsequently withdrawn or relinquished, is available for a review period to be determined by the Certificate of Need Section, but beginning no earlier than 60 days from:
- (A) the last date on which an appeal of the notice of intent to withdraw the certificate could be filed if no appeal is filed,
- (B) the date on which an appeal of the withdrawal is finally resolved against the holder, or
- (C) the date that the Certificate of Need Section receives from the holder of the certificate of need notice that the certificate has been voluntarily relinquished.
- Notice of the scheduled review period for the reallocated services or beds shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for submittal of the new applications.
- (6) Need Determinations for which No Applications are Received:
- (A) Services or Beds with Scheduled Review in the Calendar Year on or Before September 1: The Certificate of Need Section shall not reallocate the services or beds in this category for which no applications were received, because the Medical Facilities Planning Section will have sufficient time to make any necessary changes in the determinations of need for these services or beds in the next annual State Medical Facilities Plan.
- (B) Services or Beds with Scheduled Review in the Calendar Year After September 1: A need determination in this category for which no application has been received by the last due date for submittal of applications shall be available to be applied for in the second Category I review period in the next calendar year for the applicable HSA. Notice of the scheduled review period for the reallocated beds or services shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 45 days prior to the due date for submittal of new applications.
- (7) Need Determinations not Awarded because Application Disapproved.
- (A) Disapproval in the Calendar Year prior to August 17: Need determinations or portions of such need determinations for which applications were submitted but disapproved by the Certificate of Need Section before August 17, shall not be reallocated by the Certificate of Need Section. Instead the Medical Facilities Planning Section shall make the necessary changes in the next annual State Medical Facilities Plan, if no appeal is filed.
- (B) Disapproval in the Calendar Year on or After August 17: Need determinations or portions of such need determinations for which applications were submitted but disapproved by the Certificate of Need Section on or after August 17, shall be reallocated by the Certificate of Need Section, except for dialysis stations. A need in this category shall be available for a review period to be determined by the Certificate of Need Section but beginning no earlier than 95 days from the date the application was disapproved, if no appeal is filed. Notice of the scheduled review period for the reallocation shall be mailed by the Certificate of Need Section to all persons on the mailing list for the State Medical Facilities Plan, no less than 80 days prior to the due date for submittal of the new applications.
- (8) Reallocation of Decertified ICF/MR Beds. If an ICF/MR facility's Medicaid certification is relinquished or revoked, the ICF/MR beds in the facility shall be reallocated by the Department of Human Resources, Division of Facility Services, Medical Facilities Planning Section pursuant to the provisions of the following Sub-parts. The reallocated beds shall only be used to convert five-bed ICF/MR facilities into six-bed facilities.
- (A) If the number of five-bed ICF/MR facilities in the mental health planning region in which the beds are located equals or exceeds the number of reallocated beds, the beds shall be reallocated solely within the planning region after considering the recommendation of the Regional Team of Developmental Disabilities Services Directors.
- (B) If the number of five-bed ICF/MR facilities in the mental health planning region in which the beds are located is less than the number of reallocated beds, the Medical Facilities Planning Section shall reallocate the excess beds

to other planning regions after considering the recommendation of the Developmental Disabilities Section in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services. The Medical Facilities Planning Section shall then allocate the beds among the planning areas within those planning regions after considering the recommendation of the appropriate Regional Teams of Developmental Disabilities Services Directors.

.3056 DIALYSIS STATION NEED DETERMINATION

(a) The Medical Facilities Planning Section (MFPS) shall determine need for new dialysis stations two times each calendar year, and shall make a report of such determinations available to all who request it. This report shall be called the North Carolina Semiannual Dialysis Report (SDR). Data to be used for such determinations, and their sources, are as follows:

- (1) Numbers of dialysis patients, by type, county and facility, from the Southeastern Kidney Council, Inc. (SEKC) and the Mid-Atlantic Renal Coalition, Inc. as of December 31, 1996 for the March SDR and as of June 30, 1997 for the September SDR.
- (2) Certificate of need decisions, decisions appealed, appeals settled, and awards, from the Certificate of Need Section, DFS.
- (3) Facilities certified for participation in Medicare, from the Certification Section, DFS.
- (4) Need determinations for which certificate of need decisions have not been made, from MFPS records.

Need determinations in this report shall be an integral part of the State Medical Facilities Plan, as provided in G.S. 131E-183.

(b) Need for new dialysis stations shall be determined as follows:

- (1) County Need
 - (A) The average annual rate (%) of change in total number of dialysis patients resident in each county from the end of 1992 to the end of 1996 is multiplied by the county's 1996 year end total number of patients in the SDR, and the product is added to each county's most recent total number of patients reported in the SDR. The sum is the county's projected total 1997 patients.

- (B) The percent of each county's total patients who were home dialysis patients at the end of 1996 is multiplied by the county's projected total 1997 patients, and the product is subtracted from the county's projected total 1997 patients. The remainder is the county's projected 1997 in-center dialysis patients.
- (C) The projected number of each county's 1997 in-center patients is divided by 3.2. The quotient is the projection of the county's 1997 in-center dialysis stations.
- (D) From each county's projected number of 1997 in-center stations is subtracted the county's number of stations certified for Medicare, CON-approved and awaiting certification, awaiting resolution of CON appeals, and the number represented by need determinations in previous State Medical Facilities Plans or Semiannual Dialysis Reports for which CON decisions have not been made. The remainder is the county's 1997 projected surplus or deficit.
- (E) If a county's 1997 projected station deficit is 10 or greater and the SDR shows that utilization of each dialysis facility in the county is 80% or greater, the 1997 county station need determination is the same as the 1997 projected station deficit. If a county's 1997 projected station deficit is less than 10 or if the utilization of any dialysis facility in the county is less than 80%, the county's 1997 station need determination is zero.
- (2) Facility Need. A dialysis facility located in a county for which the result of the County Need methodology is zero in the reference Semiannual Dialysis Report (SDR) is determined to need additional stations to the extent that:
 - (A) Its utilization, reported in the current SDR, is 3.2 patients per station or greater.
 - (B) Such need, calculated as follows, is reported in an application for a certificate of need:
 - (i) The facility's number of in-center dialysis patients reported in the previous SDR (SDR_i) is subtracted from the number of in-center dialysis patients reported in the current SDR (SDR_j). The difference is multiplied by 2 to project the net in-center change for one year. Divide the projected net in-center change for the year by the number of in-center patients from SDR_i to determine the projected annual growth rate.
 - (ii) The quotient from Subpart (b)(2)(B)(i) of this Rule is divided by 12.
 - (iii) The quotient from Subpart (b)(2)(B)(ii) of this Rule is multiplied by the number of months from the most recent month reported in the current SDR until the end of calendar 1997.
 - (iv) The product from Subpart (b)(2)(B)(iii) of this Rule is multiplied by the number of the facility's in-center patients reported in the current SDR and that product is added to such reported number of in-center patients.
 - (v) The sum from Subpart (b)(2)(B)(iv) of this Rule is divided by 3.2, and from the quotient is subtracted the facility's current number of certified and pending stations as recorded in the current SDR. The remainder is the number of stations needed.
 - (C) The facility may apply to expand to meet the need established in Subpart (b)(2)(B)(v) of this Rule, up to a maximum of 10 stations.
- (c) The schedule for publication of the North Carolina Semiannual Dialysis Report (SDR) and for receipt of certificate of need applications based on each issue of this report in 1997 shall be as follows:

<u>Data for</u>	<u>Receipt of</u>	<u>Publication</u>	<u>Receipt of</u>	<u>Beginning</u>
<u>Period Ending</u>	<u>SEKC Report</u>	<u>of SDR</u>	<u>CON Applications</u>	<u>Review Dates</u>

- (d) An application for a certificate of need pursuant to this Rule shall be accepted only if it demonstrates a need by utilizing one of the methods of determining need outlined in this Rule.
- (e) An application for a new End Stage Renal Disease facility shall not be approved unless it documents the need for at least 10 stations based on utilization of 3.2 patients per station per week.
- (f) Home patients will not be included in determination of need for new stations.

It is determined that there is a need for additional open heart surgery services from any hospital which acquired a heart-lung bypass machine prior to March 18, 1993 and which, nevertheless, is unable to use such machine in the provision of open heart surgery services because the hospital does not have a certificate of need authorizing it to provide open heart surgery services. It is further determined that the citizens served by, and residing in the general service areas of, such hospitals have a need for such additional open heart surgery services. **.3073 DEMONSTRATION PROJECT ON PEDIATRIC NURSING CARE NEED DETERMINATION
(REVIEW CATEGORY G)**

(a) It is determined that nine nursing facility beds are needed to demonstrate the efficacy of short-term (less than 30 days) care of medically fragile infants and children. This demonstration project shall provide services to support medically fragile children who are primarily cared for at home and shall provide data to assist in determining if these children can be successfully cared for at home over the long-term with intermittent inpatient nursing facility admission. Because of improved medical procedures and care, more infants with complex medical needs are surviving and are being discharged from hospitals. The medical equipment and care needed by these children in the home is quite sophisticated. Pediatric patients suffering from acquired brain injury or from major trauma with significant orthopaedic problems may also require continued services, which include intermittent inpatient nursing care services, after discharge from rehabilitation hospitals. The proposed project shall be designed to ease the transition from the hospital environment to care at home for these patient groups. It shall also offer respite care and other services to low birth-weight children, to children with serious chronic conditions, and to children with rehabilitation needs.

(b) An applicant for the project shall demonstrate that home health services shall be provided through a home health agency. Furthermore, an applicant shall demonstrate coordination with other health services, including a hospice provider, an acute care provider, and an inpatient rehabilitation provider. Project oversight shall include at least one Pediatrician who is willing to serve as medical advisor and willing to assist in evaluation of the demonstration project's effectiveness. The goal of the services provided shall be for long-term maintenance of the pediatric patient at home.

(c) The demonstration project shall provide data to evaluate the effectiveness of this type of program in at least these ways:

- (1) Enhanced parent confidence/willingness to care for the child at home;
- (2) Reduced length of stay for hospitalization episodes;
- (3) Reduced hospitalizations/rehospitalizations;
- (4) Reduced incidence of institutionalization of children to long-term care facilities;
- (5) Outcomes of care -- especially relative to rehabilitation, chronic disease care;
- (6) Cost data -- cost efficiencies, expense, reimbursement issues.

(d) The demonstration project shall provide data to evaluate if additional programs in North Carolina would benefit the medically fragile pediatric population. Data shall be provided to the NC State Health Coordinating Council at least annually, beginning in the second year of the project's operation. Annual data reporting is to continue, until directed otherwise by the State Health Coordinating Council, or until the demonstrated activity becomes incorporated as a regular part of the State Medical Facilities Plan.

.3074 HOME HEALTH AGENCY OFFICE NEED DETERMINATION (REVIEW CATEGORY F)

(a) It is determined that the Health Service Areas identified in 10 NCAC 3R .3054(a) and listed in this Rule may have a need for additional home health agency offices that is not revealed by the standard methodology as specified.

(b) Applications for certificates of need for home health agency offices filed pursuant to these adjusted need determinations shall demonstrate:

- (1) that the applicant proposes to address the needs of at least one of the following special needs groups:
 - (A) racial minorities,
 - (B) nursing home patients in transition to the community,
 - (C) HIV/AIDS patients,
 - (D) Alzheimer's Disease/senile dementia patients, or
 - (E) underserved patients in rural counties; and
- (2) that the applicant proposes to serve, during its first operating year, at least 50 patients who are members of the special groups identified in Subparagraph (1), of this Rule; and
- (3) that either:
 - (A) home health agencies currently serving the geographic area are not meeting the needs of the groups the applicant proposes to serve; or
 - (B) the proposed home health agency office will offer new or innovative services not currently being offered by home health agencies that serve the geographic area the applicant proposes to serve.

.3076 HOSPICE INPATIENT FACILITY BED NEED DETERMINATION (REVIEW CATEGORY F)

(a) Single Counties. Single counties with a projected deficit of six or more beds are allocated beds based on the projected deficit. It is determined that there is no need for additional single county hospice inpatient facility beds.

(b) Contiguous Counties. It is determined that any combination of two or more contiguous counties taken from the following list shall have a need for new hospice inpatient facility beds if the combined bed deficit for the grouping of contiguous counties totals six or more beds. Each county in a grouping of contiguous counties must have a deficit of at least one and no more than five beds. The need for the grouping of contiguous counties shall be the sum of the deficits in the individual counties. For purposes of this Rule, "contiguous counties" shall mean a grouping of North Carolina counties which includes the county in which the new hospice inpatient facility is proposed to be located and any one or more of the North Carolina counties which have a common border with that county, even if the borders only touch at one point. No county may be included in a grouping of contiguous counties unless it is listed in the following table:

.3080 POLICIES FOR GENERAL ACUTE CARE HOSPITALS

(a) Use of Licensed Bed Capacity Data for Planning Purposes. For planning purposes the number of licensed beds shall be determined by the Division of Facility Services in accordance with standards found in 10 NCAC 3C .6200 and .3102(d).

(b) Utilization of Acute Care Hospital Bed Capacity. Conversion of underutilized hospital space to other needed purposes shall be considered an alternative to new construction. Hospitals falling below utilization targets in Paragraph (e) of this Rule are assumed to have underutilized space. Any such hospital proposing new construction must clearly demonstrate that it is more cost-effective than conversion of existing space.

(c) Exemption from Plan Provisions for Certain Academic Medical Center Teaching Hospital Projects. Projects for which certificates of need are sought by academic medical center teaching hospitals may qualify for exemption from provisions of 10 NCAC 3R .3056 through .3079.

(1) The State Medical Facilities Planning Section shall designate as an Academic Medical Center Teaching Hospital any facility whose application for such designation demonstrates the following characteristics of the hospital:

- (A) Serves as a primary teaching site for a school of medicine and at least one other health professional school, providing undergraduate, graduate and postgraduate education.
- (B) Houses extensive basic medical science and clinical research programs, patients and equipment.
- (C) Serves the treatment needs of patients from a broad geographic area through multiple medical specialties.

(2) Exemption from the provisions of 10 NCAC 3R .3056 through .3079 shall be granted to projects submitted by Academic Medical Center Teaching Hospitals designated prior to January 1, 1990 which projects comply with one of the following conditions:

- (A) Necessary to complement a specified and approved expansion of the number or types of students, residents or

- faculty, as certified by the head of the relevant associated professional school; or
- (B) Necessary to accommodate patients, staff or equipment for a specified and approved expansion of research activities, as certified by the head of the entity sponsoring the research; or
- (C) Necessary to accommodate changes in requirements of specialty education accrediting bodies, as evidenced by copies of documents issued by such bodies.

(d) Reconversion to Acute Care. Facilities redistributing beds from acute care bed capacity to rehabilitation or psychiatric use shall obtain a certificate of need to convert this capacity back to acute care. Application for reconversion of acute care beds converted to psychiatry or rehabilitation back to acute care beds shall be evaluated against the hospital's utilization in relation to the target occupancies for acute care beds shown in this Paragraph, without regard to the acute care bed need determinations shown in 10 NCAC 3R .3057.

<u>Licensed Bed Capacity</u>	<u>Percent Occupancy</u>
1 - 49	65%
50 - 99	70%
100 - 199	75%
200 - 699	80%
700 +	81.5%

(e) Replacement of Acute Care Bed Capacity. The evaluation of proposals for either partial or total replacement of acute care beds (i.e., construction of new space for existing acute care beds) shall be evaluated against the utilization of the total number of acute care beds in the applicant's hospital in relation to the target occupancy of the total number of beds in that hospital which is determined as follows:

<u>Total Licensed Acute Care Beds</u>	<u>Target Occupancy (Percent)</u>
1 - 49	65%
50 - 99	70%
100 - 199	75%

.3081 POLICIES FOR INPATIENT REHABILITATION SERVICES

(a) Distribution of Inpatient Rehabilitation Beds. After applying other required criteria, when superiority among two or more competing rehabilitation facility certificate of need applications is uncertain, favorable consideration shall be given to proposals that make rehabilitation services more accessible to patients and their families or are part of a comprehensive regional rehabilitation network.

(b) Outpatient and Home Care. Rehabilitation care which can be provided in an outpatient or home setting shall be provided in these settings unless it has been determined by an appropriate utilization program that inpatient care is necessary. All new inpatient rehabilitation programs are required to provide comprehensive outpatient rehabilitation services as part of their service delivery programs.

.3082 POLICIES FOR AMBULATORY SURGICAL FACILITIES

Multi-Specialty Ambulatory Surgery. After applying other required criteria, when superiority among two or more competing ambulatory surgical facility certificate of need applications is uncertain, favorable consideration shall be given to "multi-specialty programs" over "specialty programs" in areas where need is demonstrated in 10 NCAC 3R .3059. multi-specialty ambulatory surgical program means a program providing services in at least three of the following areas: gynecology, otolaryngology, plastic surgery, general surgery, ophthalmology, orthopedics, urology, and oral surgery. An ambulatory surgical facility shall provide at least two designated operating rooms with general anesthesia capabilities, and at least one designated recovery room.

.3083 POLICIES FOR NURSING CARE FACILITIES

(a) Provision of Hospital-Based Long-Term Nursing Care.

(1) A certificate of need may be issued to a hospital which is licensed under G.S. 131E, Article 5, and which meets the conditions set forth in this Paragraph and in 10 NCAC 3R .1100, to convert up to 10 beds from its licensed acute care bed capacity for use as hospital-based long-term nursing care beds without regard to determinations of need in 10 NCAC 3R .3072 if the hospital:

(A) is located in a county which was designated as non-metropolitan by the U.S. Office of Management and Budget on January 1, 1997; and

(B) on January 1, 1997, had a licensed acute care bed capacity of 150 beds or less.

The certificate of need shall remain in force as long as the Department of Human Resources determines

- (1) The beds are developed in a contiguous mental health planning area that is within the same mental health planning region, as defined by 10 NCAC 3R .3054(c); and
- (2) The program board in the planning area in which the beds are needed and the program board in the planning area in which the beds are to be developed each adopt a resolution supporting the development of the beds in the contiguous planning area.

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

**.3079 INTERMEDIATE CARE BEDS FOR THE MENTALLY RETARDED NEED DETERMINATION
(REVIEW CATEGORY C)**

Intermediate Care Beds for the Mentally Retarded. It is determined that the mental health planning areas listed in the following table need additional Intermediate Care Beds for the Mentally Retarded ("ICF/MR beds"). The table identifies the number of new child and adult ICF/MR beds needed by each of the listed planning areas. These new ICF/MR beds shall only be used to convert existing five-bed ICF/MR beds into six-bed facilities. There is no need for new ICF/MR facilities or for any additional ICF/MR beds in any other mental health planning areas, except as provided in Rule 10 NCAC 3R .3055(a)(8).

.3080 POLICIES FOR GENERAL ACUTE CARE HOSPITALS

(a) Use of Licensed Bed Capacity Data for Planning Purposes. For planning purposes the number of licensed beds shall be determined by the Division of Facility Services in accordance with standards found in 10 NCAC 3C .6200 and .3102(d).

(b) Utilization of Acute Care Hospital Bed Capacity. Conversion of underutilized hospital space to other needed purposes shall be considered an alternative to new construction. Hospitals falling below utilization targets in Paragraph (e) of this Rule are assumed to have underutilized space. Any such hospital proposing new construction must clearly demonstrate that it is more cost-effective than conversion of existing space.

(c) Exemption from Plan Provisions for Certain Academic Medical Center Teaching Hospital Projects. Projects for which certificates of need are sought by academic medical center teaching hospitals may qualify for exemption from provisions of 10 NCAC 3R .3056 through .3079.

(1) The State Medical Facilities Planning Section shall designate as an Academic Medical Center Teaching Hospital any facility whose application for such designation demonstrates the following characteristics of the hospital:

- (A) Serves as a primary teaching site for a school of medicine and at least one other health professional school, providing undergraduate, graduate and postgraduate education.
- (B) Houses extensive basic medical science and clinical research programs, patients and equipment.
- (C) Serves the treatment needs of patients from a broad geographic area through multiple medical specialties.

(2) Exemption from the provisions of 10 NCAC 3R .3056 through .3079 shall be granted to projects submitted by Academic Medical Center Teaching Hospitals designated prior to January 1, 1990 which projects comply with one of the following conditions:

- (A) Necessary to complement a specified and approved expansion of the number or types of students, residents or

- faculty, as certified by the head of the relevant associated professional school; or
- (B) Necessary to accommodate patients, staff or equipment for a specified and approved expansion of research activities, as certified by the head of the entity sponsoring the research; or
- (C) Necessary to accommodate changes in requirements of specialty education accrediting bodies, as evidenced by copies of documents issued by such bodies.

(d) Reconversion to Acute Care. Facilities redistributing beds from acute care bed capacity to rehabilitation or psychiatric use shall obtain a certificate of need to convert this capacity back to acute care. Application for reconversion of acute care beds converted to psychiatry or rehabilitation back to acute care beds shall be evaluated against the hospital's utilization in relation to the target occupancies for acute care beds shown in this Paragraph, without regard to the acute care bed need determinations shown in 10 NCAC 3R .3057.

(e) Replacement of Acute Care Bed Capacity. The evaluation of proposals for either partial or total replacement of acute care beds (i.e., construction of new space for existing acute care beds) shall be evaluated against the utilization of the total number of acute care beds in the applicant's hospital in relation to the target occupancy of the total number of beds in that hospital which is determined as follows:

<u>Total Licensed Acute Care Beds</u>	<u>Target Occupancy (Percent)</u>
1 - 49	65%
50 - 99	70%
100 - 199	75%

.3081 POLICIES FOR INPATIENT REHABILITATION SERVICES

(a) Distribution of Inpatient Rehabilitation Beds. After applying other required criteria, when superiority among two or more competing rehabilitation facility certificate of need applications is uncertain, favorable consideration shall be given to proposals that make rehabilitation services more accessible to patients and their families or are part of a comprehensive regional rehabilitation network.

(b) Outpatient and Home Care. Rehabilitation care which can be provided in an outpatient or home setting shall be provided in these settings unless it has been determined by an appropriate utilization program that inpatient care is necessary. All new inpatient rehabilitation programs are required to provide comprehensive outpatient rehabilitation services as part of their service delivery programs.

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

.3082 POLICIES FOR AMBULATORY SURGICAL FACILITIES

Multi-Specialty Ambulatory Surgery. After applying other required criteria, when superiority among two or more competing ambulatory surgical facility certificate of need applications is uncertain, favorable consideration shall be given to "multi-specialty programs" over "specialty programs" in areas where need is demonstrated in 10 NCAC 3R .3059. A

multi-specialty ambulatory surgical program means a program providing services in at least three of the following areas: gynecology, otolaryngology, plastic surgery, general surgery, ophthalmology, orthopedics, urology, and oral surgery. An ambulatory surgical facility shall provide at least two designated operating rooms with general anesthesia capabilities, and at least one designated recovery room.

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

.3083 POLICIES FOR NURSING CARE FACILITIES

(a) Provision of Hospital-Based Long-Term Nursing Care.

(1) A certificate of need may be issued to a hospital which is licensed under G.S. 131E, Article 5, and which meets the conditions set forth in this Paragraph and in 10 NCAC 3R .1100, to convert up to 10 beds from its licensed acute care bed capacity for use as hospital-based long-term nursing care beds without regard to determinations of need in 10 NCAC 3R .3072 if the hospital:

- (A) is located in a county which was designated as non-metropolitan by the U.S. Office of Management and Budget on January 1, 1997; and
- (B) on January 1, 1997, had a licensed acute care bed capacity of 150 beds or less.

The certificate of need shall remain in force as long as the Department of Human Resources determines

that the hospital is meeting the conditions outlined in this Paragraph.

- (2) "Hospital-based long-term nursing care" is defined as long-term nursing care provided to a patient who has been directly discharged from an acute care bed and cannot be immediately placed in a licensed nursing facility because of the unavailability of a bed appropriate for the individual's needs. Determination of the patient's need for hospital-based long-term nursing care shall be made in accordance with criteria and procedures for determining need for long-term nursing care administered by the Division of Medical Assistance and the Medicare program. Beds developed under this Paragraph are intended to provide placement for residents only when placement in other long-term care beds is unavailable in the geographic area. Hospitals which develop beds under this Paragraph shall discharge patients to other nursing facilities with available beds in the geographic area as soon as possible where appropriate and permissible under applicable law. Necessary documentation including copies of physician referral forms (FL 2) on all patients in hospital-based nursing units shall be made available for review upon request by duly authorized representatives of licensed nursing facilities.

- (3) For purposes of this Paragraph, beds in hospital-based long-term nursing care shall be certified as a "distinct part" as defined by the Health Care Financing Administration. Beds in a "distinct part" shall be converted from the existing licensed bed capacity of the hospital and shall not be reconverted to any other category or type of bed without a certificate of need. An application for a certificate of need for reconverting beds to acute care shall be evaluated against the hospital's service needs utilizing target occupancies shown in 10 NCAC 3R .3080(d), without regard to the acute care bed need shown in 10 NCAC 3R .3057.

- (4) A certificate of need issued for a hospital-based long-term nursing care unit shall remain in force as long as the following conditions are met:

- (A) the beds shall be certified for participation in the Title XVIII (Medicare) and Title XIX (Medicaid) Programs;
- (B) the hospital discharges residents to other nursing facilities in the geographic area with available beds when such discharge is appropriate and permissible under applicable law;
- (C) patients admitted shall have been acutely ill inpatients of an acute hospital or its satellites immediately preceding placement in the unit. The granting of beds for hospital-based long-term nursing care shall not allow a hospital to convert additional beds without first obtaining a certificate of need. Where any hospital, or

the parent corporation or entity of such hospital, any subsidiary corporation or entity of such hospital, or any corporation or entity related to or affiliated with such hospital by common ownership, control or management:

- (i) applies for and receives a certificate of need for long-term care bed need determinations in 10 NCAC 3R .3072; or
- (ii) currently has nursing home beds licensed as a part of the hospital under G.S. 131E, Article 5; or
- (iii) currently operates long-term care beds under the Federal Swing Bed Program (P.L. 96-499), such hospital shall not be eligible to apply for a certificate of need for hospital-based long-term care nursing beds under this Rule. Hospitals designated by the State of North Carolina as Rural Primary Care Hospitals pursuant to Section 1820(f) of the Social Security Act, as amended, which have not been allocated long-term care beds under provisions of G.S. 131E-175 through 131E-190, may apply to develop beds under this Paragraph. However, such hospitals shall not develop long-term care beds both to meet needs determined in 10 NCAC 3R .3072 and this Paragraph.

- (5) Beds certified as a "distinct part" under this Paragraph shall be counted in the inventory of existing long-term care beds and used in the calculation of unmet long-term care bed need for the general population of a planning area. Applications for certificates of need pursuant to this Paragraph shall be accepted only for the February 1 review cycle. Beds awarded under this Paragraph shall be deducted from need determinations for the county as shown in 10 NCAC 3R .3072. Continuation of this policy shall be reviewed and approved by the Department of Human Resources annually. Certificates of need issued under policies analogous to this policy in State Medical Facilities Plans subsequent to the 1986 State Medical Facilities Plan are automatically amended to conform with the provisions of this Paragraph. The Department of Human Resources shall monitor this program and ensure that patients affected by this Paragraph are receiving appropriate services, and that conditions under which the certificate of need was granted are being met.

- (b) Plan Exemption for Continuing Care Facilities.

- (1) Qualified continuing care facilities may include from the outset, or add or convert bed capacity for long-term nursing care without regard to the bed need shown in 10 NCAC 3R .3072. To qualify for such

exemption, applications for certificates of need shall show that the proposed long-term nursing bed capacity:

- (A) Will only be developed concurrently with, or subsequent to construction on the same site, of facilities for both of the following levels of care:
 - (i) independent living accommodations (apartments and homes) for persons who are able to carry out normal activities of daily living without assistance; such accommodations may be in the form of apartments, flats, houses, cottages, and rooms within a suitable structure;
 - (ii) domiciliary care (adult care) beds for use by persons who, because of age or disability require some personal services, incidental medical services, and room and board to assure their safety and comfort.
- (B) Will be used exclusively to meet the needs of persons with whom the facility has continuing care contracts (in compliance with the Department of Insurance statutes and rules) who have lived in a non-nursing unit of the continuing care facility for a period of at least 30 days. Exceptions shall be allowed when one spouse or sibling is admitted to the nursing unit at the time the other spouse or sibling moves into a non-nursing unit, or when the medical condition requiring nursing care was not known to exist or be imminent when the individual became a party to the continuing care contract. Financial consideration paid by persons purchasing a continuing care contract shall be equitable between persons entering at the "independent living" and "domiciliary" levels of care.
- (C) Reflects the number of beds required to meet the current or projected needs of residents with whom the facility has an agreement to provide continuing care, after making use of all feasible alternatives to institutional nursing care.
- (D) Will not be certified for participation in the Medicaid program.
- (2) One half of the long-term nursing beds developed under this exemption shall be excluded from the inventory used to project bed need for the general population. Certificates of need issued under policies analogous to this policy in State Medical Facilities Plans subsequent to the 1985 SMFP are automatically amended to conform with the provisions of this Paragraph. Certificates of need awarded pursuant to the provisions of Chapter 920, Session Laws 1983, or Chapter 445, Session Laws

1985 shall not be amended.

(c) Determination of Need for Additional Nursing Beds in Single Provider Counties. When a long-term care facility with fewer than 80 nursing care beds is the only nursing care facility within a county, it may apply for a certificate of need for additional nursing beds in order to bring the minimum number of beds available within the county to no more than 80 nursing beds without regard to the nursing bed need determination for that county as listed in 10 NCAC 3R .3072.

(d) Relocation of Certain Nursing Facility Beds.

(1) A certificate of need to relocate existing licensed nursing facility beds to another county(ies) may be issued to a facility licensed as a nursing facility under G.S. 131E, Article 6, Part A, provided that the conditions set forth in this Paragraph and in 10 NCAC 3R .1100 and the review criteria in G.S. 131E-183(a) are met. A facility applying for a certificate of need to relocate nursing facility beds shall demonstrate that:

- (A) it is a non-profit nursing facility supported by and directly affiliated with a particular religion and that it is the only nursing facility in North Carolina supported by and affiliated with that religion;
- (B) the primary purpose for the nursing facility's existence is to provide long-term care to followers of the specified religion in an environment which emphasizes religious customs, ceremonies, and practices;
- (C) relocation of the nursing facility beds to one or more sites is necessary to more effectively provide long-term nursing care to followers of the specified religion in an environment which emphasizes religious customs, ceremonies, and practices;
- (D) the nursing facility is expected to serve followers of the specified religion from a multi-county area; and
- (E) the needs of the population presently served shall be met adequately pursuant to G.S. 131E-183.

(2) Exemption from the provisions of 10 NCAC 3R .3072 shall be granted to a nursing facility for purposes of relocating existing licensed nursing beds to another county provided that it complies with all of the criteria listed in Subparagraph (d)(1) of this Rule.

(3) Any certificate of need issued under this Rule shall be subject to the following conditions:

- (A) the nursing facility shall relocate beds in at least two stages over a period of at least six months; and
- (B) the nursing facility shall provide a letter to the Medical Facilities Licensure Section, on or before the date that the first group of beds are relocated, irrevocably committing the facility to relocate all of the nursing facility beds for

that the hospital is meeting the conditions outlined in this Paragraph.

- (2) "Hospital-based long-term nursing care" is defined as long-term nursing care provided to a patient who has been directly discharged from an acute care bed and cannot be immediately placed in a licensed nursing facility because of the unavailability of a bed appropriate for the individual's needs. Determination of the patient's need for hospital-based long-term nursing care shall be made in accordance with criteria and procedures for determining need for long-term nursing care administered by the Division of Medical Assistance and the Medicare program. Beds developed under this Paragraph are intended to provide placement for residents only when placement in other long-term care beds is unavailable in the geographic area. Hospitals which develop beds under this Paragraph shall discharge patients to other nursing facilities with available beds in the geographic area as soon as possible where appropriate and permissible under applicable law. Necessary documentation including copies of physician referral forms (FL 2) on all patients in hospital-based nursing units shall be made available for review upon request by duly authorized representatives of licensed nursing facilities.
- (3) For purposes of this Paragraph, beds in hospital-based long-term nursing care shall be certified as a "distinct part" as defined by the Health Care Financing Administration. Beds in a "distinct part" shall be converted from the existing licensed bed capacity of the hospital and shall not be reconverted to any other category or type of bed without a certificate of need. An application for a certificate of need for reconverting beds to acute care shall be evaluated against the hospital's service needs utilizing target occupancies shown in 10 NCAC 3R .3080(d), without regard to the acute care bed need shown in 10 NCAC 3R .3057.
- (4) A certificate of need issued for a hospital-based long-term nursing care unit shall remain in force as long as the following conditions are met:
 - (A) the beds shall be certified for participation in the Title XVIII (Medicare) and Title XIX (Medicaid) Programs;
 - (B) the hospital discharges residents to other nursing facilities in the geographic area with available beds when such discharge is appropriate and permissible under applicable law;
 - (C) patients admitted shall have been acutely ill inpatients of an acute hospital or its satellites immediately preceding placement in the unit. The granting of beds for hospital-based long-term nursing care shall not allow a hospital to convert additional beds without first obtaining a certificate of need. Where any hospital, or

the parent corporation or entity of such hospital, any subsidiary corporation or entity of such hospital, or any corporation or entity related to or affiliated with such hospital by common ownership, control or management:

- (i) applies for and receives a certificate of need for long-term care bed need determinations in 10 NCAC 3R .3072; or
 - (ii) currently has nursing home beds licensed as a part of the hospital under G.S. 131E, Article 5; or
 - (iii) currently operates long-term care beds under the Federal Swing Bed Program (P.L. 96-499), such hospital shall not be eligible to apply for a certificate of need for hospital-based long-term care nursing beds under this Rule. Hospitals designated by the State of North Carolina as Rural Primary Care Hospitals pursuant to Section 1820(f) of the Social Security Act, as amended, which have not been allocated long-term care beds under provisions of G.S. 131E-175 through 131E-190, may apply to develop beds under this Paragraph. However, such hospitals shall not develop long-term care beds both to meet needs determined in 10 NCAC 3R .3072 and this Paragraph.
- (5) Beds certified as a "distinct part" under this Paragraph shall be counted in the inventory of existing long-term care beds and used in the calculation of unmet long-term care bed need for the general population of a planning area. Applications for certificates of need pursuant to this Paragraph shall be accepted only for the February 1 review cycle. Beds awarded under this Paragraph shall be deducted from need determinations for the county as shown in 10 NCAC 3R .3072. Continuation of this policy shall be reviewed and approved by the Department of Human Resources annually. Certificates of need issued under policies analogous to this policy in State Medical Facilities Plans subsequent to the 1986 State Medical Facilities Plan are automatically amended to conform with the provisions of this Paragraph. The Department of Human Resources shall monitor this program and ensure that patients affected by this Paragraph are receiving appropriate services, and that conditions under which the certificate of need was granted are being met.
- (b) Plan Exemption for Continuing Care Facilities.
- (1) Qualified continuing care facilities may include from the outset, or add or convert bed capacity for long-term nursing care without regard to the bed need shown in 10 NCAC 3R .3072. To qualify for such

exemption, applications for certificates of need shall show that the proposed long-term nursing bed capacity:

- (A) Will only be developed concurrently with, or subsequent to construction on the same site, of facilities for both of the following levels of care:
 - (i) independent living accommodations (apartments and homes) for persons who are able to carry out normal activities of daily living without assistance; such accommodations may be in the form of apartments, flats, houses, cottages, and rooms within a suitable structure;
 - (ii) domiciliary care (adult care) beds for use by persons who, because of age or disability require some personal services, incidental medical services, and room and board to assure their safety and comfort.
- (B) Will be used exclusively to meet the needs of persons with whom the facility has continuing care contracts (in compliance with the Department of Insurance statutes and rules) who have lived in a non-nursing unit of the continuing care facility for a period of at least 30 days. Exceptions shall be allowed when one spouse or sibling is admitted to the nursing unit at the time the other spouse or sibling moves into a non-nursing unit, or when the medical condition requiring nursing care was not known to exist or be imminent when the individual became a party to the continuing care contract. Financial consideration paid by persons purchasing a continuing care contract shall be equitable between persons entering at the "independent living" and "domiciliary" levels of care.
- (C) Reflects the number of beds required to meet the current or projected needs of residents with whom the facility has an agreement to provide continuing care, after making use of all feasible alternatives to institutional nursing care.
- (D) Will not be certified for participation in the Medicaid program.
- (2) One half of the long-term nursing beds developed under this exemption shall be excluded from the inventory used to project bed need for the general population. Certificates of need issued under policies analogous to this policy in State Medical Facilities Plans subsequent to the 1985 SMFP are automatically amended to conform with the provisions of this Paragraph. Certificates of need awarded pursuant to the provisions of Chapter 920, Session Laws 1983, or Chapter 445, Session Laws

1985 shall not be amended.

(c) Determination of Need for Additional Nursing Beds in Single Provider Counties. When a long-term care facility with fewer than 80 nursing care beds is the only nursing care facility within a county, it may apply for a certificate of need for additional nursing beds in order to bring the minimum number of beds available within the county to no more than 80 nursing beds without regard to the nursing bed need determination for that county as listed in 10 NCAC 3R .3072.

(d) Relocation of Certain Nursing Facility Beds.

(1) A certificate of need to relocate existing licensed nursing facility beds to another county(ies) may be issued to a facility licensed as a nursing facility under G.S. 131E, Article 6, Part A, provided that the conditions set forth in this Paragraph and in 10 NCAC 3R .1100 and the review criteria in G.S. 131E-183(a) are met. A facility applying for a certificate of need to relocate nursing facility beds shall demonstrate that:

- (A) it is a non-profit nursing facility supported by and directly affiliated with a particular religion and that it is the only nursing facility in North Carolina supported by and affiliated with that religion;
- (B) the primary purpose for the nursing facility's existence is to provide long-term care to followers of the specified religion in an environment which emphasizes religious customs, ceremonies, and practices;
- (C) relocation of the nursing facility beds to one or more sites is necessary to more effectively provide long-term nursing care to followers of the specified religion in an environment which emphasizes religious customs, ceremonies, and practices;
- (D) the nursing facility is expected to serve followers of the specified religion from a multi-county area; and
- (E) the needs of the population presently served shall be met adequately pursuant to G.S. 131E-183.

(2) Exemption from the provisions of 10 NCAC 3R .3072 shall be granted to a nursing facility for purposes of relocating existing licensed nursing beds to another county provided that it complies with all of the criteria listed in Subparagraph (d)(1) of this Rule.

(3) Any certificate of need issued under this Rule shall be subject to the following conditions:

- (A) the nursing facility shall relocate beds in at least two stages over a period of at least six months; and
- (B) the nursing facility shall provide a letter to the Medical Facilities Licensure Section, on or before the date that the first group of beds are relocated, irrevocably committing the facility to relocate all of the nursing facility beds for

which it has a certificate of need to relocate; and

- (C) subsequent to providing the letter to the Medical Facilities Licensure Section described in Part (d)(3)(B) of this Rule, the nursing facility shall accept no new patients in the beds which are being relocated, except new patients who, prior to admission, indicate their desire to transfer to the facility's new location(s).

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

.3084 POLICIES FOR HOME HEALTH SERVICES

(a) Development of Home Health Services. After applying other required criteria, when superiority among two or more competing home health agency or office certificate of need applications is uncertain, favorable consideration shall be given to proposals which:

- (1) provide an expanded scope of services (including nursing, physical therapy, speech therapy, and home health aide service);
- (2) provide the widest range of treatments within a given service; and
- (3) have the ability to offer services on a seven days per week basis as required to meet patient needs.

(b) Need Determination Upon Termination of County's Sole Home Health Agency. When a home health agency's board of directors, or in the case of a public agency, the responsible public body, votes to discontinue the agency's provision of home health services; and

- (1) the agency is the only home health agency with an office physically located in the county; and
- (2) the agency is not being lawfully transferred to another entity;

need for a new home health agency or office in the county is thereby established through this Rule. Following receipt of written notice of such decision from the home health agency's chief administrative officer, the Certificate of Need Section shall give public notice of the need for one home health agency or office in the county, and the dates of the review of applications to meet the need. Such notice shall be given no less than 45 days prior to the final date for receipt of applications in a newspaper serving the county and to home health agencies located outside the county reporting serving county patients in the most recent licensure applications on file.

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

.3085 POLICIES FOR END-STAGE RENAL DISEASE DIALYSIS SERVICES

(a) Availability of Dialysis Care. After applying other required criteria, when superiority among two or more competing dialysis facility or station certificate of need applications is uncertain, favorable consideration shall be given to applicants proposing to provide or arrange for:

- (1) home training and backup for patients suitable for

home dialysis in the ESRD dialysis facility or in a facility that is a reasonable distance from the patient's residence;

- (2) ESRD dialysis service availability at times that do not interfere with ESRD patients' work schedules;
- (3) services in rural, remote areas.

(b) Relocation of Dialysis Stations. Relocations of existing dialysis stations are allowed only within the host county and to contiguous counties currently served by the facility. Certificate of need applicants proposing to relocate dialysis stations shall:

- (1) demonstrate that the proposal shall not result in a deficit in the number of dialysis stations in the county that would be losing stations as a result of the proposed project, as reflected in the most recent Semiannual Dialysis Report, and
- (2) demonstrate that the proposal shall not result in a surplus of dialysis stations in the county that would gain stations as a result of the proposed project, as reflected in the most recent Semiannual Dialysis Report.

Authority G.S. 131E-176(25); 131E-177(1); 131E-183(b).

.3086 POLICIES FOR PSYCHIATRIC INPATIENT FACILITIES

(a) Transfer of Beds from State Psychiatric Hospitals to Community Facilities. Beds in the State psychiatric hospitals used to serve short-term psychiatric patients may be relocated to community facilities. However, before beds are transferred out of the State psychiatric hospitals, appropriate services and programs shall be available in the community. State hospital beds which are relocated to community facilities shall be closed within 90 days following the date the transferred beds become operational in the community. Facilities proposing to operate transferred beds shall commit to serve the type of short-term patients normally placed at the State psychiatric hospitals. To help ensure that relocated beds will serve those persons who would have been served by the State psychiatric hospitals, a proposal to transfer beds from a State hospital shall include a written memorandum of agreement between the area MH/DD/SAS program serving the county where the beds are to be located, the Secretary of Human Resources, and the person submitting the proposal.

(b) Allocation of Psychiatric Beds. A hospital submitting a Certificate of Need application to add inpatient psychiatric beds shall convert excess licensed acute care beds to psychiatric beds. In determining excess licensed acute care beds, the hospital shall subtract the average occupancy rate for its licensed acute care beds over the previous 12-month period from the appropriate target occupancy rate for acute care beds listed in 10 NCAC 3R .3080(d) and multiply the difference by the number of its existing licensed acute care beds.

(c) Linkages Between Treatment Settings. An applicant applying for a certificate of need for psychiatric inpatient facility beds shall document that the affected area mental health, developmental disabilities and substance abuse authorities have been contacted and invited to comment on the proposed

services.

Notice of Rule-making Proceedings for 15A NCAC 2Q .0805 was published in the Register on December 15, 1995. Notice of Rule-making Proceedings for 15A NCAC 2Q .0806 - .0807 was published in the Register on March 15, 1996.

Proposed Effective Date: July 1, 1998

A Public Hearing will be conducted at 7:00 p.m. on September 8, 1997 at the Ground Floor Hearing Room, Archdale Building, 512 N. Salisbury Street, Raleigh, NC 27611.

Reason for Proposed Action:

15A NCAC 2D .0101, .0104 - .0105, .0202, .0302, .0531, .0953, .1005, .1107, .1305, .1503, and .1603; and 15A NCAC 2Q .0103, .0108, .0307, and .0521 - To change the Division name due to restructure of the Division of Environmental Management and to change the post office box of the Division of Air Quality due to a move.

15A NCAC 2D .1204 and .1206 - To clarify that temperature measuring devices are required to have a quality assurance program and to eliminate the primary chamber temperature requirement for medical waste incinerators.

15A NCAC 2D .1701 - .1710 - The proposed rules for controlling landfill gas emissions from "existing" municipal solid waste landfills (MSWL) are required to implement the Emission Guidelines promulgated by the EPA on March 12, 1996. The Emission Guidelines rules require each state to submit a state plan to the EPA for controlling landfill gas emissions from "existing" MSWLs. The proposed rules would fulfill a part of all the requirements of an acceptable state plan. If North Carolina does not submit an acceptable state plan to the EPA then the EPA will develop and implement a federal plan to implement the Emission Guideline rules.

15A NCAC 2D .1902 - .1903 - To change the name of the Asbestos Hazard Management Branch to Health Hazards Control Branch and to change the name of the Division of Environmental Management to Division of Air Quality.

15A NCAC 2Q .0207 - To add perchloroethylene to the list of compounds in 15A NCAC 2Q .0207 for annual reporting of emissions is required.

15A NCAC 2Q .0805 - .0807 - To revise the exclusionary levels for permit fee purposes for both grain elevators and cotton gins and to clarify that storage tanks that store fuel for an emergency generator would not disqualify the generator from the exclusionary rules.

Comment Procedures: All persons interested in these matters are invited to attend the public hearings. Any person desiring to comment for more than three minutes is requested to submit a written statement for inclusion in the record of proceedings at the public hearing. The hearing record will remain open until October 8, 1997, to receive additional written statements. Comments should be sent to and additional information concerning the hearing or the proposals may be obtained by contacting:

SECTION .0300 - AIR POLLUTION EMERGENCIES

.0302 EPISODE CRITERIA

Conditions justifying the proclamation of an air pollution alert, air pollution warning, or air pollution emergency shall be deemed to exist whenever the Director determines that the accumulation of air contaminants in any place is attaining or has attained levels ~~which that~~ could, if such levels are sustained or exceeded, lead to a threat to the health of the public. In making this determination, the Director shall be guided by the following criteria:

- (1) Air Pollution Forecast. An internal watch by the Division of ~~Environmental Management~~ and local air pollution control agencies shall be activated by a National Weather Service advisory that an atmospheric stagnation advisory is in effect, or the equivalent local forecast of stagnant atmospheric conditions.
- (2) Alert. The alert level is that concentration of pollutants at which first stage control actions are to begin. The Director shall proclaim an alert when any of the following levels is reached at any monitoring site:
 - (a) sulfur dioxide -- 800 ug/m³ (0.3 p.p.m.), 24-hour average;
 - (b) particulate -- 375 ug/m³, 24-hour average;
 - (c) sulfur dioxide and particulate combined -- product of sulfur dioxide ug/m³, 24-hour average, and particulate ug/m³, 24-hour

- average, equal to 65,000;
 - (d) carbon monoxide -- 17 mg/m³ (15 p.p.m.), eight-hour average;
 - (e) ozone -- 400 ug/m³ (0.2 p.p.m.), one-hour average;
 - (f) nitrogen dioxide -- 1130 ug/m³ (0.6 p.p.m.), one-hour average; 282 ug/m³ (0.15 p.p.m.), 24-hour average;
 - (g) PM10--350 ug/m³, 24-hour average;
- and meteorological conditions are such that pollutant concentrations can be expected to remain at these levels for 12 or more hours or increase or, ~~in the case of for~~ in the case of ozone, the situation is likely to ~~reoccur~~ recur within the next 24-hours unless control actions are taken.

- (3) Warning. The warning level indicates that air quality is continuing to degrade and that additional abatement actions are necessary. The Director shall proclaim a warning when any one of the following levels is reached at any monitoring site:

- (a) sulfur dioxide -- 1600 ug/m³ (0.6 p.p.m.), 24-hour average;
- (b) particulate -- 625 ug/m³, 24-hour average;

- (c) sulfur dioxide and particulate combined -- product of sulfur dioxide ug/m³, 24-hour average, and particulate ug/m³, 24-hour average, equal to 261,000;

- (d) carbon monoxide -- 34 mg/m³ (30 p.p.m.), eight-hour average;

- (e) ozone -- 800 ug/m³ (0.4 p.p.m.), one-hour average;

- (f) nitrogen dioxide -- 2260 ug/m³ (1.2 p.p.m.), one-hour average; 565 ug/m³ (0.3 p.p.m.), 24-hour average;

- (g) PM10--420 ug/m³; 24-hour average;
- and meteorological conditions are such that pollutant concentrations can be expected to remain at these levels for 12 or more hours or increase or, ~~in the case of for~~ in the case of ozone, the situation is likely to ~~reoccur~~ recur within the next 24 hours unless control actions are taken.

- (4) Emergency. The emergency level indicates that air quality is continuing to degrade to a level that should never be reached and that the most stringent control actions are necessary. The Secretary of the Department of Environment, Health, and Natural Resources ~~Natural Resources and Community Development~~ with the concurrence of the Governor shall declare an emergency when any one of the following levels is reached at any monitoring site:

- (a) sulfur dioxide -- 2100 ug/m³ (0.8 p.p.m.), 24-hour average;

- (b) particulate -- 875 ug/m³, 24-hour average;

- (c) sulfur dioxide and particulate combined -- product of sulfur dioxide ug/m³, 24-hour

- average, and particulate $\mu\text{g}/\text{m}^3$, 24-hour average, equal to 393,000;
 - (d) carbon monoxide -- 46 mg/m^3 (40 p.p.m.), eight-hour average;
 - (e) ozone -- 1000 $\mu\text{g}/\text{m}^3$ (0.5 p.p.m.), one-hour average;
 - (f) nitrogen dioxide -- 3000 $\mu\text{g}/\text{m}^3$ (1.6 p.p.m.), one-hour average; 750 $\mu\text{g}/\text{m}^3$ (0.4 p.p.m.), 24-hour average;
 - (g) PM10--500 $\mu\text{g}/\text{m}^3$, 24-hour average.
- (5) Termination. Once declared any level reached by application of these criteria will remain in effect until the criteria for that level are no longer met. At that time the next lower level will be assumed.

Authority G.S. 143-215.3(a)(1); 143-215.3(a)(12).

SECTION .0500 - EMISSION CONTROL STANDARDS

.0531 SOURCES IN NONATTAINMENT AREAS

(a) Applicability.

- (1) Ozone Nonattainment Areas. This Rule applies to major stationary sources and major modifications of sources of volatile organic compounds or nitrogen oxides for which construction commences after the area in which the source is located is designated in ~~accordance with~~ according to Part (A) or (B) of this Subparagraph and ~~which that~~ are located in:
- (A) areas designated in 40 CFR 81.334 as nonattainment for ozone, or
 - (B) any of the following areas and in that area only when the Director notices in the North Carolina Register that the area is in violation of the ambient air quality standard for ozone:
 - (i) Charlotte/Gastonia, consisting of Mecklenburg and Gaston Counties; with the exception allowed under Paragraph (k) of this Rule;
 - (ii) Greensboro/Winston-Salem/High Point, consisting of Davidson, Forsyth, and Guilford Counties and that part of Davie County bounded by the Yadkin River, Dutchmans Creek, North Carolina Highway 801, Fulton Creek and back to Yadkin River; or
 - (iii) Raleigh/Durham, consisting of Durham and Wake Counties and Dutchville Township in Granville County.

Violations of the ambient air quality standard for ozone shall be determined ~~in accordance with~~ according to 40 CFR 50.9.

- (2) Carbon Monoxide Nonattainment Areas. This Rule applies to major stationary sources and major modifications of sources of carbon monoxide located in areas designated in 40 CFR 81.334 as nonattainment for carbon monoxide and for which

construction commences after the area in which the source is located is listed in 40 CFR 81.334 as nonattainment for carbon monoxide.

- (3) Redesignation to Attainment. If any county or part of a county to which this Rule applies is later designated in 40 CFR 81.334 as attainment for ozone or carbon monoxide, all sources in that county subject to this Rule before the redesignation date shall continue to comply with this Rule.
- (b) For the purpose of this Rule the definitions contained in 40 CFR 51.165(a)(1) and 40 CFR 51.301 shall apply. The reasonable period specified in 40 CFR 51.165(a)(1)(vi)(C)(1) shall be seven years.

(c) This Rule is not applicable to:

- (1) complex sources of air pollution ~~that are~~ regulated only under Section .0800 of this Subchapter and not under any other rule in this Subchapter;
- (2) emission of pollutants at the new major stationary source or major modification located in the nonattainment area ~~which that~~ are pollutants other than the pollutant or pollutants for which the area is nonattainment. (A major stationary source or major modification that is major for volatile organic compounds or nitrogen oxides is also major for ozone.);
- (3) emission of pollutants for which the source or modification is not major;
- (4) a new source or modification ~~which that~~ qualifies for exemption under the provision of 40 CFR 51.165(a)(4); and
- (5) emission of compounds ~~that are~~ listed under 40 CFR 51.100(s) as having been determined to have negligible photochemical reactivity except carbon monoxide.

(d) 15A NCAC 2Q .0102 and .0302 are not applicable to any source to which this Rule applies. The owner or operator of the source shall apply for and receive a permit as required in 15A NCAC 2Q .0300 or .0500.

(e) To issue a permit to a source to which this Rule applies, the Director shall determine that the source will meet the following requirements:

- (1) The source will emit the nonattainment pollutant at a rate no more than the lowest achievable emission rate;
- (2) The owner or operator of the proposed new or modified source has demonstrated that all major stationary sources in the State ~~which that~~ are owned or operated by this person (or any entity controlling, controlled by, or under common control with this person) are subject to emission limitations and are in compliance, or on a schedule for compliance ~~which that~~ is federally enforceable or contained in a court decree, with all applicable emission limitations and standards of this Subchapter ~~which that~~ EPA has authority to approve as elements of the North Carolina State Implementation Plan for Air Quality;
- (3) The source will obtain sufficient emission reductions

of the nonattainment pollutant from other sources in the nonattainment area so that the emissions from the new major source and associated new minor sources will be less than the emissions reductions by a ratio of at least 1.00 to 1.15 for volatile organic compounds and nitrogen oxides and by a ratio of lesser than one to one for carbon monoxide. The baseline for this emission offset shall be the actual emissions of the source from which offset credit is obtained. Emission reductions shall not include any reductions resulting from compliance (or scheduled compliance) with applicable rules in effect prior to before the application. The difference between the emissions from the new major source and associated new minor sources of carbon monoxide and the emission reductions shall be sufficient to represent reasonable further progress toward attaining the Ambient Air Quality Standards. The emissions reduction credits shall also conform to the provisions of 40 CFR 51.165(a)(3)(ii)(A) through (G); and

- (4) The North Carolina State Implementation Plan for Air Quality is being carried out for the nonattainment area in which the proposed source is located.

(f) When a particular source or modification becomes a major stationary source or major modification solely by virtue of a relaxation in any enforceable limitation established after August 7, 1980, on the capacity of the source or modification to emit a pollutant, such as a restriction on hours of operation, then the provisions of this Rule shall apply to the source or modification as though construction had not yet begun on the source or modification.

(g) To issue a permit to a source of a nonattainment pollutant, the Director shall determine, in addition to the other requirements of this Rule, that an analysis (produced by the permit applicant) of alternative sites, sizes, production processes, and environmental control techniques for source demonstrates that the benefits of the source significantly outweigh the environmental and social costs imposed as a result of its location, construction, or modification.

(h) Approval of an application ~~with regard to~~ regarding the requirements of this Rule shall not relieve the owner or operator of the responsibility to comply fully with applicable provisions of other rules of this Chapter and any other requirements under local, state, or federal law.

(i) When a source or modification subject to this Rule may affect the visibility of a Class I area named in Paragraph (c) of Rule .0530 of this Section, the following procedures shall be followed:

- (1) The owner or operator of the source shall provide an analysis of the impairment to visibility that would occur ~~as a result~~ because of the source or modification and general commercial, industrial and other growth associated with the source or modification;
- (2) The Director shall provide written notification to all affected Federal Land Managers within 30 days of receiving the permit application or within 30 days of

receiving advance notification of an application. The notification shall be at least 30 days ~~prior to~~ before the publication of the notice for public comment on the application. The notification shall include a copy of all information relevant to the permit application including an analysis provided by the source of the potential impact of the proposed source on visibility;

- (3) The Director shall consider any analysis concerning visibility impairment performed by the Federal Land Manager if the analysis is received within 30 days of notification. TITLE 10 - DEPARTMENT OF HUMAN RESOURCES

Rule-making Agency: DHR - Division of Medical Assistance

Rule Citation: 10 NCAC 26H .0602

Effective Date: July 25, 1997

Findings Reviewed by Julian Mann, III: *Approved*

Authority for the rule-making: G.S. 108A-25(b); 108A-54; 108A-55; S.L. 1985, c.479, s.86; 42 C.F.R. 440.70

Reason for Proposed Action: *This action is based on a home health study conducted by the Division of Medical Assistance and results in the home health aide prospective rate being more nearly aligned to average industry cost. The proposed change will result in annual savings of approximately 900 thousand dollars to the Medicaid program.*

Comment Procedures: *Written comments concerning this rule-making action must be submitted by October 14, 1997 to Portia Rochelle, APA Coordinator, Division of Medical Assistance, 1985 Umstead Drive, Raleigh, NC 27603.*

CHAPTER 26 - MEDICAL ASSISTANCE

SUBCHAPTER 26H - REIMBURSEMENT PLANS

SECTION .0600 - HOME HEALTH PROSPECTIVE REIMBURSEMENT

.0602 REIMBURSEMENT METHODS

(a) A maximum rate per visit is established annually for each of the following services:

- (1) Registered or Licensed Practical Nursing Visit;
- (2) Physical Therapy Visit;
- (3) Speech Therapy Visit;
- (4) Occupational Therapy Visit;
- (5) Home Health Aide Visit.

(b) The maximum rates for the services identified in Paragraph (a) of this Rule are computed and applied as follows:

- (1) Payment of claims for visits is based on the lower of the billed customary charges or the maximum rate of the particular service. Governmental providers with nominal charges may bill at cost. For this purpose, a charge that is less than 50 percent of cost is considered a nominal charge. For such governmental providers, the payment amount is equal to the lower of the cost as billed or the applicable maximum rate.
- (2) Maximum per visit rates effective July 1, 1996, for Registered or Licensed Practical Nursing, Physical

Therapy, Speech Therapy, and Occupational Therapy ~~and Home Health Aide~~ shall be equal to the rates in effect on July 1, 1995.

(3) To compute the annual maximum rates effective each July 1 subsequent to July 1, 1996, the maximum rates per visit are adjusted as described in Subparagraphs (4), (5), and (6) of this Paragraph.

(3) Maximum per visit rate effective July 1, 1996 for Home Health Aide shall be equal to the rate in effect on July 1, 1995. To compute the annual maximum rates effective each July 1 subsequent to July 1, 1996, the fiftieth percentile cost per visit calculated from the base year 1994 cost reports is adjusted as described in Subparagraphs (4), (5), and (6) of this Paragraph.

(4) Each year maximum rates are adjusted by an annual cost index factor. The cost index has a labor component with a relative weight of 75 percent and a non-labor component with a relative weight of 25 percent. The relative weights are derived from the Medicare Home Health Agency Input Price Index published in the Federal Register dated May 30, 1986. Labor cost changes are measured by the annual percentage change in the average hourly earnings of North Carolina service wages per worker. Non-labor cost changes are measured by the annual percentage change in the GNP Implicit Price Deflator.

(5) The annual cost index equals the sum of the products of multiplying the forecasted labor cost percentage change by 75 percent and multiplying the forecasted non-labor cost percentage change by 25 percent. For services included under Subparagraph (2) of this Paragraph, the July 1, 1996 effective rates are multiplied by the cost index factor for each subsequent year up to the year in which the rates apply. For services included under Subparagraph (3) of this Paragraph, base year costs per visit are multiplied by the cost index factor for each subsequent year up to the year in which rates apply.

(6) Other adjustments may be necessary for home health services to comply with federal or state laws or rules.

(c) Medical supplies except those related to provision and use of Durable Medical Equipment are reimbursed at the lower of a provider's billed customary charges or a maximum amount determined for each supply item. Fees will be established based on average, reasonable charges if a Medicare allowable amount cannot be obtained for a particular supply item. Estimates of reasonable cost will be used if a Medicare allowable amount cannot be obtained for a particular supply or equipment item. The Medicare allowable amounts will be those amounts available to the Division of Medical Assistance as of

July 1 of each year.

(d) These changes to the Payment for Services Prospective Reimbursement Plan for Home Health Agencies will become effective when the Health Care Financing Administration, US Department Health and Human Services, approves amendment submitted to HCFA by the Director of the Division of Medical Assistance on or about July 1, ~~1996~~ 1997 as ~~#MA96-03~~ #MA97-06 wherein the Director proposes amendments of the State Plan to amend Payment for Services - Prospective Reimbursement Plan for Home Health Agencies.

TITLE 21 - OCCUPATIONAL LICENSING BOARDS

CHAPTER 32 - BOARD OF MEDICAL EXAMINERS

Rule-making Agency: North Carolina Medical Board

Rule Citation: 21 NCAC 32H .0402

Effective Date: July 28, 1997

Findings Reviewed and Approved by: Beecher R. Gray

Authority for the rule-making: G.S. 143-514

Reason for Proposed Action: Fosphenytoin (Cerebyx) is manufactured by Parke-Davis and, as of January 1, 1997 has permanently replaced Dilantin (phenytoin). Park-Davis no longer manufactures Dilantin, however there are approximately 12 companies which continue to offer generic forms of parenteral phenytoin. A temporary rule to include Fosphenytoin in the medication for use by EMT-Paramedics will allow local ALS medical directors to implement its use in their EMS protocols immediately.

FINDINGS OF FACT

Stipulated Facts

- 1. "Both parties are properly before this Administrative Law Judge, in that jurisdiction and venue are proper, both parties received notice of hearing, and Petitioner received the letters denying re-issue of his insurance license."
- 2. "The North Carolina Department of Insurance has the authority granted under Chapter 58 of the North Carolina General Statutes to license insurance agents and to deny, revoke or suspend such licenses."
- 3. "Petitioner was previously licensed to sell insurance by the North Carolina Department of Insurance."
- 4. "Petitioner was convicted in Sampson County of two counts of misdemeanor larceny on November 3, 1992, and was ordered by the Court to surrender his insurance license for twelve months."
- 5. "Petitioner was convicted in Johnson [sic] County of larceny on April 20, 1993, and was ordered by the Court not to sell insurance or obtain a license."
- 6. "On May 14, 1993, the Petitioner's licenses to sell insurance were revoked by the Department of Insurance."
- 7. "On February 8, 1995, the Petitioner obtained an order in Johnson [sic] County modifying that portion of the suspended sentence prohibiting the defendant from selling insurance or obtaining a license. It was ordered that the Petitioner may sell insurance so long as he is licensed by the State of North Carolina and may obtain a license to sell insurance if otherwise eligible."
- 8. "The Petitioner applied for licensing as a Life and Health agent."

9. "The Petitioner has now successfully completed all required education requirements and has successfully completed the licensing examination."

Adjudicated Facts

10. The Petitioner was born on July 22, 1945. He served in the United States Navy. He is a Vietnam veteran and received an honorable discharge.
11. The Petitioner became a licensed insurance agent in August 1969.
12. In October 1969, the Petitioner began working as an insurance agent with Combined Insurance Company of America. After five months on the job, the Petitioner was promoted to a manager position. A year and a half later, the Petitioner became Combined Insurance Company's first district manager in North Carolina.
13. In 1979, the Petitioner resigned from Combined Insurance Company to become the Assistant Agency Director for Investors Consolidated Insurance Company's Accident and Health Division.
14. During 1981 and 1982, the Petitioner was in business for himself as an independent agent.
15. In 1984, the Petitioner contracted with Standard Life and Accident Insurance Company as a Managing General Agent. He was in charge of thirty to forty agents and general agents. The Petitioner and the agents he supervised generated between seven and eight hundred thousand dollars a year in premiums for Standard Life. The Petitioner's first year of commissions and premiums generated an income of approximately six to eight thousand dollars a month. As the Managing General Agent, the Petitioner made Standard Life's President Club seven years in a row. He was always among the company's top ten Managing General Agents.
16. Sometime during 1991, the Petitioner issued two field policies for a husband and wife in Sampson County. The premiums for the two policies were placed in the Petitioner's business account. The Petitioner misplaced the field policies and the premiums were never forwarded to Standard Life. When the clients contacted the Petitioner about why they had not received a refund on their premiums, the Petitioner tried to straighten the matter out. However, the clients' daughter had already made a complaint to Standard Life which referred the matter to the Respondent.
17. The Respondent's investigation of the Petitioner's failure to remit the insurance premiums to Standard Life for the two field policies resulted in the Petitioner being charged with two counts of felonious embezzlement. Following a plea bargain, the Petitioner was convicted of two counts of misdemeanor larceny on November 3, 1992, in Sampson County.
18. As part of the Petitioner's plea bargain, the Petitioner was required to surrender his license to sell insurance for a period of 12 months to the Respondent on December 18, 1992.
19. The Petitioner was charged with another count of embezzlement in Johnston County in June 1992. This incident arose out of the Petitioner's supervision of another insurance agent, Jim Seay. Mr. Seay misplaced the applications for insurance and sent the premiums to a different insurance company than the one the application was originally for. The Petitioner did not keep the premiums himself and insurance policies were issued to client, although not by the insurance company named on the lost applications.
20. The Petitioner pled guilty to misdemeanor larceny and received a two year suspended sentence in April 1993. As part of his sentence, the Petitioner was ordered not to sell insurance or to obtain a license to sell insurance.
21. The Petitioner does not have a conviction for misdemeanor assault by pointing a gun in Wake County on June 24, 1987.
22. At the time the Petitioner entered his guilty pleas, he did not know that his pleas would result in termination of his right to collect commissions on renewals of all policies he had previously sold.
23. The Petitioner did not convert any premiums to his personal use.
24. The two instances of mishandling insurance premiums are the only two incidents that have occurred in the Petitioner's twenty-two plus years as a licensed insurance agent.

25. Dewey B. Sheffield has been a licensed insurance agent since 1965. He has known the Petitioner for approximately thirty-five years. Mr. Sheffield testified that the Petitioner has a fine reputation for integrity, trustworthiness, and honesty in both his community and in the insurance profession. Mr. Sheffield also testified that he has hired, trained, and managed hundreds of insurance salespeople and he would not hesitate to hire the Petitioner.
26. In addition to having received a ribbon for his service in the military during the Vietnam war, the Petitioner is active in the American Legion; he is a former member of the Veterans of Foreign Wars; and he coaches little league in his community.
27. The statutes governing the licensing requirements for insurance agents provide that "[a]n applicant for any license . . . must be deemed by the Commissioner to be competent, trustworthy and financially responsible, and must have not willfully violated the insurance laws of this or any other state."
28. Pursuant to N.C. Gen. Stat. §58-33-30(g), an application "may . . . be denied for any reason for which a license may be suspended or revoked or not renewed under G.S. §58-33-45(a)."
29. North Carolina Gen. Stat. §58-33-45(a) provides that:

The Commissioner may suspend, revoke, or refuse to renew any license issued under this Article if . . . he finds as to the licensee any one or more of the following conditions:

- ...
 - (3) Violation of, or noncompliance with, any insurance laws, or any lawful rule, or order of the Commissioner or a Commissioner of another state;
 - ...
 - (5) Improperly withholding, misappropriating, or converting to his own use any moneys belonging to policyholders, insurers, beneficiaries or others received in the course of his insurance business;
 - ...
 - (8) Conviction of a misdemeanor involving moral turpitude, or conviction of a felony;
 - ...
 - (10) In the conduct of his affairs under the license, the licensee has used fraudulent, coercive or dishonest practices, or has shown himself to be incompetent, untrustworthy, or financially irresponsible;
 -

Based on the foregoing Findings of Fact, the undersigned Administrative Law Judge makes the following:

CONCLUSIONS OF LAW

1. The parties are properly before the Office of Administrative Hearings.
2. The Respondent has the authority under N. C. Gen. Stat. §58-33-45(a) to suspend, revoke, or refuse to renew the license of any insurance agent.
3. Under the provisions of the statutes governing insurance, the Petitioner's conviction of misdemeanor larceny subjects him to possible suspension, revocation, or nonrenewal of his insurance agent's license.
4. Although the Respondent has the authority to deny the Petitioner's renewal of his insurance agent's license, the Commissioner is not required to deny the Petitioner's application. The statute says that the Commissioner "may suspend, revoke, or refuse to renew any license. . . ." (Emphasis added). Consequently, the Respondent has some discretion, depending upon the individual circumstances to determine if nonrenewal is appropriate.
5. The evidence indicates that the two incidents that occurred in 1991 are the only blemishes upon the Petitioner's twenty-two plus years as an insurance agent. During those twenty-two plus years, the Petitioner compiled a record of generally outstanding performance. In addition, the Petitioner has established a reputation for honesty and trustworthiness in his community.

6. The evidence does not indicate that the Petitioner willfully violated any laws. Instead, the evidence indicates that the Petitioner needed to put in place a system of checks and balances so that information or policies did not get misplaced without someone being aware that there was a problem. However, considering the volume of insurance business the Petitioner was conducting, it cannot be said that his manner of conducting business indicates that he is incompetent, untrustworthy, or financially irresponsible.
7. The fact that the Petitioner has been convicted of a misdemeanor involving moral turpitude is mitigated by his established reputation in the community and in his profession. It is further mitigated by the facts that the Petitioner did not gain personally from the mistakes that he made, and those two mistakes are the only occurrences in a twenty-two plus years career.
8. There is no evidence that the Petitioner used fraudulent, coercive or dishonest practices in the conduct of his insurance business.

PROPOSAL FOR DECISION

The Commissioner of the N.C. Department of Insurance will make the Final Decision in this contested case. Based upon the foregoing findings of fact and conclusions of law, it is hereby proposed that the Commissioner enter a final decision issuing the Petitioner a license as a Life and Health Agent.

NOTICE

Before the Commissioner of the N.C. Department of Insurance makes the FINAL DECISION, the Commissioner is required by North Carolina General Statutes §150B-40(e) to give each party an opportunity to file exceptions to this PROPOSAL FOR DECISION, and to present written arguments to those in the agency who will make the final decision.

A copy of the final agency decision or order shall be served upon each party personally or by certified mail addressed to the party at the latest address given by the party to the agency and a copy shall be furnished to the attorney of record. N.C. Gen. Stat. §150B-42(a). It is requested that the agency furnish a copy to the Office of Administrative Hearings.

This the 25th day of July, 1997.

Administrative Law Judge

The North Carolina Administrative Code (NCAC) has four major subdivisions of rules. Two of these, titles and chapters, are mandatory. The major subdivision of the NCAC is the title. Each major department in the North Carolina executive branch of government has been assigned a title number. Titles are further broken down into chapters which shall be numerical in order. The other two, subchapters and sections are optional subdivisions to be used by agencies when appropriate.
